UBS Neo: System Disclaimer

Last updated: 16 February 2015

In this Disclaimer “you” shall mean the Client on whose behalf you as a User have been given access to the System.

BY ACCESSING UBS NEO, YOU WILL BE DEEMED TO HAVE FURTHER AGREED AS FOLLOWS:

UBS Neo is a multi-tool, multi-asset platform. Its functionality may differ for each client. Access to UBS Neo is subject to acceptance of the UBS Neo System Use Agreement, this UBS Neo System Disclaimer and such other terms and conditions or disclaimers made available on UBS Neo (including in the Legal Center) or referred to in clause 12 (Entire Agreement) of the UBS Neo System Use Agreement. Terms not otherwise defined in this UBS Neo System Disclaimer are defined in the UBS Neo System Use Agreement.

This UBS Neo System Disclaimer applies to all use of UBS Neo. Where specific UBS Neo functionality is made available to you subject to more specific terms and disclaimers (“Specific Disclaimers”), such Specific Disclaimers shall supplement this UBS Neo System Disclaimer, but in the event of a conflict, the Specific Disclaimer shall take precedence.

Access to and use of UBS Neo or linked electronic services provided by UBS AG and/or any Affiliate of UBS AG (“UBS”), and any content herein, including without limitation on screen, via mobile, in downloadable information and/or in posted documents (“Content”) is subject to the following disclaimer and any other posted restrictions.

All information in NEO is provided in response to your specific request and solely for informational purposes and is not to be construed as a solicitation or an offer to buy or sell any securities, related financial instruments or services.

Indicative prices

This section applies to price quotations published via UBS Neo.

The price quotations published via UBS Neo are not valuations and are indicative only and show preliminary estimates of the price at which UBS would purchase (bid) or sell (offer) the relevant instruments in a round lot as at the date and time of publication (commonly referred to as “Indicative Price Quotations”). Any such Indicative Price Quotations are subject to change without notice at the sole discretion of UBS and should not be used for valuation or any other purposes.

These Indicative Price Quotations should not be taken to suggest that any transactions have or will take place at these prices and do not constitute firm bids or offers or any other solicitation to conclude a transaction at the level stated, or represent the price at which UBS would be willing to purchase, sell, enter into, assign, terminate or settle any transaction. You should note that any request for firm, currently tradeable bid or offer prices may result in different prices to reflect such factors as hedging and transaction costs, credit considerations, and market liquidity. Any transaction between you and UBS which is based on an Indicative Price Quotation will be subject to agreement on the actual price and such additional terms as are agreed.

No polling of dealers is conducted in determining Indicative Price Quotations. UBS’s Indicative Price Quotations may vary significantly from indicative or actual price quotations available from other sources.

Opinions

This section applies to any opinion published via UBS Neo.

Opinions expressed via UBS Neo are subject to change without notice and may differ from opinions expressed by UBS elsewhere (via UBS Neo or otherwise). UBS is not under any obligation to update or keep current any such opinions.

Research

This UBS Neo System Disclaimer, and any Specific Disclaimer attached and/or applicable to such research, applies to all research made available via UBS Neo.
Yield information

This section applies to all yield information made available via UBS Neo. Yield information is based upon UBS’s current methodology. This methodology relies on models, empirical data and assumptions and as such UBS makes no representation or warranty as to the accuracy or appropriateness of that methodology. Yield information does not necessarily reflect UBS’s internal books and records for the relevant transaction or related product and UBS makes no representation or warranty as to the value other persons may attribute to any subject or related products.

Exposure analysis

This section applies to all exposure analysis information made available via UBS Neo.

It should be noted that any exposure analysis provided to you by UBS will be for informational purposes only and should not be used in substitution for the exercise of independent judgement. The assumptions and parameters used are not the only ones that might reasonably have been selected and therefore no guarantee is given to the accuracy, completeness or reasonableness of such exposure analysis. The analysis is based in part on information and market data which may be subject to change. UBS shall not be under any obligation to update the exposure analysis. No representation or warranty is made that any actual exposure or impairment will fall within the indicative likely exposure indicated in the future. Furthermore, no representation or warranty, express or implied, is made by UBS as to the accuracy, completeness, or fitness for any particular purpose of the calculation methodology used. Under no circumstances shall UBS have any liability for a) any loss, damage or other injury in whole or in part caused by, resulting from or relating to, any error (negligent or otherwise) of UBS in connection with the compilation, analysis, interpretation, communication, publication or delivery of any exposure analysis, or b) any direct, indirect, special, consequential, incidental or compensatory damages whatsoever (including, without limitation, lost profits), in either case caused by reliance upon or otherwise resulting from or relating to the use of (including the inability to use) any exposure analysis.
